PP-558F CARTON SEALER

This operator-free machine can be fed from a production line directly into the PP-558F where the machine will fold the top flaps and automatically tape closed. The PP-558F applies a single tape strip to both the top and bottom of the case simultaneously. This four belt drive design is a heavy duty versatile machine designed for dependable performance and easy operation. The PP-558F can be easily adjusted in only seconds to process a different size carton.
